

Bullseye Shooters

The Rockdale Rod & Gun has decided to have eight trial Outdoor Bullseye Shoots during this summer. The first shoot will be on Thursday July 16th signup will start at 4:30pm the last shoot will be Thursday September 3rd. Each relay will be able to accommodate ten shooters. The first relay will be 22 rim fire and center fire on the second relay. We will run as many relays as light permits. The shoots will be rain or shine.

Range

We will be setting up temporary tables and target frames on the trap field. On rainy days we will move into the indoor range. **Only lead bullets will be used in the indoor range.**

Signup

There will be a signup fee of \$10.00 for non-members \$5.00 for members and \$2.00 each gun. Scoring will be done by the shooters. Rockdale will have a modified Lewis system payout. First place will payout then **one** of the next six places will be selected with a random generator (A Dice). The random number will be generated **at the end of each nights shoot.** The random number will be applied to each block of six shooters (2nd - 7th and 8th -13th and etc...). If the last block is not full, it will not payout if the random number misses the shooters.

Pay Out

Rim fire and Center fire will be paid out separately each week. Payout are as follows: \$2.00 for first place, \$ 2.00 for the first block winner (2nd - 7th place) and 1.00 for each of the remaining block winners. Payouts will be available at the end of the night's shoot.

Rim Fire

There will be ten target frames set at 50 yards. After completing the slow fire portion of the rim fire shoot each shooter will move his or her frame to the 25 yard line and change the target to a 25 yard target. After completing the timed and rapid portion of the shoot the shooters will move the frames back to 50 yards.

Center Fire

For the center fire shoot install the proper 50 yard target in each frame.

After completing the slow fire portion of the center fire shoot each shooter will move his or her frame to the 25 yard line and change the target to a 25 yard target.

End of shoot

All target backs will be repaired at the end of the evenings shoot and stored in the indoor pistol range. The frames and tables will be return to there proper storage place.

Reserved times will be allowed. For pre-register or other information: E-mail Steve Ingalls at singalls@citlink.net 48 hours before the shoot. Relay positions will be on a first come first served bases, if the relay is not full with pre-register shooters.

Hope to see you in July. Please pass this announcement to league members that I missed.

Thank you,

Steve Ingalls
